Edwin Pineda Carrasco

Senior Cloud & Data Platform Engineer | Senior Database Administrator
Azure | AWS | Automation | High Availability
https://www.linkedin.com/in/eecarrasco

Professional Summary

Senior Cloud & Data Platform Engineer with over 15 years of experience delivering secure, high-availability cloud and database infrastructure solutions within regulated healthcare and financial environments. Extensive expertise in SQL Server and PostgreSQL operating in hybrid Azure and AWS architectures. Recently completed a fixed-term contract and currently available for permanent or contract opportunities across the UK, with immediate availability.

Key Technical Skills

- Databases: SQL Server (2005–2022), Oracle, PostgreSQL, MySQL, MongoDB Atlas
- Cloud Platforms: Azure (SQL MI, VMs, Data Factory), AWS (RDS, Aurora, EC2)
- DevOps & Automation: Azure DevOps, GitHub, Terraform, Ansible, CI/CD Pipelines
- ETL & BI: SSIS, SSRS, Power BI, Pentaho, Databricks, Azure Data Factory, Data Lake
- Monitoring & Performance: Zabbix, ServiceNow, OEM, Capacity Planning, Index Tuning
- Security & Compliance: GDPR, IAM, Auditing, Backup & Disaster Recovery
- Scripting & Automation: T-SQL, PowerShell, Bash, Shell Scripting, Python
- Frameworks & Practices: Agile, ITIL, DevSecOps
- Languages: English – Fluent, Spanish – Native

Professional Experience

Cloud DBA Engineer

Synnovis / SynLab, London, UK | Feb 2025 – Jan 2026 (Fixed-term contract)

- Managed and optimized cloud database platforms (Azure SQL MI, PostgreSQL, MongoDB, Oracle) supporting mission-critical healthcare services.
- Implemented CI/CD pipelines with Azure DevOps, reducing deployment errors by 40%.
- Consolidated legacy database environments to improve scalability and resilience.
- Managed access control and system integrations for core healthcare applications.

IT DBA / Senior Infrastructure Engineer

Indra (AXA Client), Spain | Oct 2024 – Jan 2025 (Fixed-term contract)

- Designed and implemented scalable cloud data platform architectures on Azure and AWS.
- Managed and optimized MongoDB Atlas cloud database environments.
- Created scalable data architectures using Azure Data Lake and Databricks.
- Delivered database migrations reducing operational costs by 30% and implemented deployment automation lowering errors by 40%.

- Automated backup and DR operations with Terraform and Ansible.

SQL DBA & IT Architect

Always on the Services, London | Sep 2023 – Sep 2024 (Fixed-term contract)

- Maintained high-availability SQL Server infrastructure for billing projects.
- Developed ETL pipelines with Python for data warehousing.
- Led audits and performance tuning across multiple production environments.
- Managed and optimized MongoDB clusters, implementing backup and monitoring strategies.

SQL DBA & DWH Engineer

NHS Guys & St Thomas, London | Jun 2022 – Aug 2023 (Fixed-term contract)

- Migrated databases from on-premise to Azure and AWS environments.
- Designed and maintained SSIS data flows and Power BI reports.
- Collaborated with dev teams to resolve critical data access issues.
- Deployed and managed MongoDB Atlas instances to support analytics and application data integration.

Previous relevant experience includes:

- Senior SQL DBA – Telefónica Tech (2021–2022)
- Service Operational Manager – TSB Bank UK (2020–2021)
- Data Platform Project Manager – TSB Bank UK (2019–2020)
- Senior SQL DBA – Websure London (2018–2019)
- Senior SQL DBA – Telefónica Spain (2015–2018)
- Senior SQL DBA – IBM Spain (2014–2015)
- SQL DBA – HP Spain (2011–2014)
- SQL DBA – Cospa & Agilmic Spain (2009–2011)

Education

- BSc (Hons) Cybersecurity – The Open University, London – 2025 (ongoing)
- Computer Science Engineering Studies – BIU, Madrid – 2015

Certifications

- Azure Databricks Platform Architect – Databricks (2026)
- Databricks Fundamentals – Databricks (2026)
- AWS Cloud Practitioner Essentials – AWS (2021)
- Certified in DBMS Architecture – MSBM UK (2020)
- Azure DevOps Policies – LinkedIn (2020)
- AWS Aurora MySQL Migration – AWS (2021)
- GCP Big Data & ML – Coursera (2021)
- Implementing Data Warehouse (SQL Server 2019) – LinkedIn (2021)
